HOW THE RANKINGS WORK

The SHS Select Power Rankings use a **proprietary multi-dimensional scoring model**. Each school receives a **Total Score out of 100**. **SHS schools and TVET/Technical Institutes are ranked separately** — TVET schools are judged only against other technical institutes, never against WASSCE-based schools.

[1] WASSCE Performance (SHS only)

Academic results and pass rates across core and elective subjects.

[2] Competition Record (SHS only)

NSMQ and inter-school academic competition history — TVET schools are not penalised for non-participation.

[3] Alumni Participation

Strength and engagement of the school's alumni network and community.

[4] Online Presence

Digital footprint, website quality, and social media reach.

[5] Programme Diversity

Breadth of programmes offered. For TVET, the number and rarity of trade courses is a major factor.

School classifications (Category A, B, C) are based on publicly available GES data as at 18th July 2026. This is NOT an official GES ranking.

TECHNICAL & VOCATIONAL INSTITUTE RANKINGS

TVET schools are ranked separately from SHS — judged only against other technical institutes, never against WASSCE-based schools.

Following feedback from our users, we rebuilt the TVET ranking to properly reflect what technical institutes do best. Trade course breadth — including extra credit for rare trades offered by few institutes in Ghana — is now a major ranking factor. TVET schools are no longer penalised for not competing in exams they don't sit.
